**IBM HS21 Server**

**Refurbished With 3 Year Great Lakes Warranty!**

The IBM Blade Server HS21 was built to support high-performance Dual-Core Intel Xeon processors, providing optimal performance for enterprise environments. Designed to take less time to install and fewer people to maintain, the HS21 helps reduce IT infrastructure costs. The Intel Extended Memory 64 technology provides the performance needed for even the most demanding applications. The HS21 blade server is supported in all IBM BladeCenter chassis.

**Key Features Include:**

- High density for better processor-to-memory performance on select applications.
- Simplified local storage with new rugged solid state drives.
- Ideal for virtualized environments with high-speed I/O, and embedded hypervisor.
- Up to 32 GB maximum memory per blade!
